Monthly Membership Options

What does it mean to be a member at Evolve?

Here at Evolve, we strongly believe that getting massages monthly improves your overall well-being. We've developed some membership options to let you get those massages or facials at a discounted rate. If you want to come more often than once a month, extra massages and facials are available at the introductory rate; other sessions are available with a 10% discount.

How much is a membership?

Evolve has a couple different membership options, designed to provide you with the services you need. There is no sign-up fee or membership fee – the monthly charge is simply the cost of the service.

<i>Membership Services</i>	<i>Member Price</i>	<i>Non-Member Price</i>
60-Minute Membership 60-minute Customized Massage <small>50 minutes of hands-on service & 10 minutes for consultation and dressing</small>	\$59 Additional massages are available at the introductory rate	\$79/session
90-Minute Membership 90-minute Customized Massage or Facial <small>80 minutes of hands-on service & 10 minutes for consultation and dressing</small>	\$77 Additional massages/facials available at the introductory rate	\$97/session

What about my family members?

When you sign up for a membership, you are permitted to add up to four people to your membership. You may share your prepaid sessions with these people, as well as your discounts.

Please note that we require pre-authorization to share these benefits.

How long is my membership contract?

Your membership lasts for 12 months. During that time, you are locked-in at that rate; this means that we will not change your prices. You will be automatically charged once a month, for the duration of the membership. If you need to cancel your membership, we require written notice 30-days in advance.

Once the membership is terminated or expired, you will no longer receive discounted services.
